#### Educational program passport

1. The mission of the educational program To be recognized as a leader in the field of training competitive family medicine doctors.

2. The purpose of the educational program: To prepare a highly qualified specialist - a family doctor who owns modern technologies of diagnosis, treatment and prevention, able to meet the needs of the patient, providing him with continuous comprehensive medical care.

## 3. Objectives of the educational program:

- To form an extensive and deep volume of basic, fundamental medical knowledge that forms the professional competence of a doctor who is able to successfully solve his professional tasks

- To form and improve the professional training of a medical specialist with clinical thinking, well-versed in the pathology of diseases of internal organs and having in-depth knowledge of related disciplines.

- To prepare a specialist for independent professional treatment and diagnostic activity, who is able to conduct a differential diagnostic search, to provide full medical assistance.

#### General information
